DSTA Award Descriptions:

Phase 1:

- **Inclusion** – for creating an engaging, accessible and inclusive experience for all
- **Critical Thinking** – for facilitating opportunities for students to expand understanding of medical or clinical concepts beyond traditional curriculum
- **Research** – for highlighting the intersection of curricular content with scholarship
- **Clinical Care** – for integrating clinical concepts into preclinical curricular content
- **Diversity** – for integrating social justice and equity principles into basic sciences or clinical content
- **Creativity** – for incorporating new and diverse methods of curricular content delivery

Phase 2:

- **Inclusion** – for meaningfully integrating medical students into the clinical team
- **Diversity** – for emphasizing social justice and equity in the clinical space
- **Clinical Care** – for demonstrating exemplary patient care, particularly by exhibiting respect and compassion for the patients and all members of the clinical team
